There has been an interesting discussion thread on "Kaizen (Continuous Improvement) Experts" group on LinkedIn over the last few weeks on the differences between takt time and cycle time. This is one of the fundamentals I'd have thought was well understood out there, along with some nuances, but I was quite surprised by the number...

Abstract: The digitally signed receipt, an innovation from financial cryptography, presents a challenge to classical double entry bookkeeping. Rather than compete, the two melded together form a stronger system. Expanding the usage of accounting into the wider domain of digital cash gives 3 local entries for each of 3 roles, the result of which I call triple entry accounting.

Truck wages are any arrangement under which wages are paid in the form of: payment in kind (i.e. commodities, including goods and/or services); credit with retailers or; a money substitute, such as scrip, chits, vouchers or tokens, rather than with conventional money. Truck, in this context, is a relatively archaic English language word meaning "exchange" or "barter"; which now is normally ...
