Change the Default Application a File Opens With on Your Mac

To change the system text size this way, we'll be changing the screen resolution of the Mac display itself. In some cases, this may mean running on a non-native scaled resolution, which tends to look best on Retina displays.

How to Increase All System Font Size in Mac OS X

If you are running a dual-display setup, you can easily adjust the primary display monitor in Mac OS X. When would you want to do this? For example, if you have a MacBook Pro 13" hooked up to a larger external display, and you want the external display with it's higher resolution to become the primary display, and your MacBook Pro with it's smaller resolution to become the secondary display.

Set the Primary Display on a Dual-Screen Mac Setup

Recently I too had this problem. My Mac would turn on, I hear the chime and see the white startup screen. But then, it would get stuck on that white screen (after the chime)-no Apple logo, no processing circle, nothing, nada! What's a girl to do? If this situation sounds like you or something ...

Have you ever come across a window that's so tall you can't even get to the resize handle with your mouse cursor because it's off the screen? There's a quick

How to resize a window on your Mac's screen that's too big ...

As of August 29, 2014, Google has decided to intentionally break old browsers. They say it's not a bug, it's by design here, even though Google's support page says it accepts Safari 4 as a fully supported browser. If you want Google searches to go back to the modern style, you need to change your User-Agent string.

Mac OS X Hints - A community-built collection of OS X hints

Air Display is an app that lets you connect an iPad, Android tablet, or Mac or Windows computer as a secondary display to a primary Mac or PC desktop using your wireless network.

FAQ-Air Display1 - Avatron Software

The MacBook Air is a line of laptop computers developed and manufactured by Apple Inc. It consists of a full-size keyboard, a machined aluminum case, and a thin light structure. The Air is available with a screen size of (measured diagonally) 13.3-inch (33.782 cm), with different specifications produced by Apple.

How to Rotate Your Computer Screen - wikiHow

Yesterday's Irish Times article touched on the subject of privacy, and the dangers of Apple moving in to new markets, creating a one-stop company for many aspects of our lives, including emails, contacts, photos, and now banking.. I don't disagree with the sentiment in the article, but I do quibble with the Apple being the focus. Over the last few years, Tim Cook has been a leading voice ...
