Open questions Mathematics is something of an extreme case. In most other sciences, new theories and ideas tend to replace older ones. Hence in most sciences work that was done long ago (exactly how long depending on the particular science) is usually superceded by work done as recently as a few decades ago, or less.

Open Questions: Mathematics

Picking up where the original Against All Odds left off, the new series maintains the same emphasis on "doing" statistics. Each unit is based on a video module that introduces a statistical topic in real-world context and takes you on location to where people from all walks of life are using statistics in their work.

Resource: Against All Odds: Inside Statistics

Figure 2. Two distributions with similar means and SDs. Panels A and B show histograms of simulated data of vulval muscle cell contraction durations derived from underlying populations with distributions that are either bimodal (A) or normal (B).
