Pedophilia (alternatively spelt paedophilia) is a psychiatric disorder in which an adult or older adolescent experiences a primary or exclusive sexual attraction to prepubescent children. Although girls typically begin the process of puberty at age 10 or 11, and boys at age 11 or 12, criteria for pedophilia extend the cut-off point for prepubescence to age 13.

### Pedophilia - Wikipedia

The roots (sometimes also called "zeros") of an equation  $f(x)=0$  are the values of  $x$  for which the equation is satisfied. Roots  $x$  which belong to certain sets are usually preceded by a modifier to indicate such, e.g.,  $x$  in  $Q$  is called a rational root,  $x$  in  $R$  is called a real root, and  $x$  in  $C$  is called a complex root. The fundamental theorem of algebra states that every polynomial equation of ...

1 Introduction. Educational technology, sometimes shortened to EduTech or EdTech, is a wide field. Therefore, one can find many definitions, some of which are conflicting. Educational technology as an academic field can be considered either as a design science or as a collection of different research interests addressing fundamental issues of learning, teaching and social organization.

A set is a finite or infinite collection of objects in which order has no significance, and multiplicity is generally also ignored (unlike a list or multiset). Members of a set are often referred to as elements and the notation  $a \in A$  is used to denote that  $a$  is an element of a set  $A$ . The study of sets and their properties is the object of set theory.

A basic problem in imaging with x-rays (or other penetrating radiation) is that a two-dimensional image is obtained of a three-dimensional object. This means that structures can overlap in the final image, even though they are completely separate in the object. This is particularly troublesome in medical diagnosis where there are many anatomic structures that can interfere with what the ...
