Biology is the natural science that studies life and living organisms, including their physical structure, chemical processes, molecular interactions, physiological mechanisms, development and evolution. Despite the complexity of the science, there are certain unifying concepts that consolidate it into a single, coherent field. Biology recognizes the cell as the basic unit of life, genes as ...

Biology - Wikipedia

Glutamate flavoring is a generic name for the flavor-enhancing compounds based on glutamic acid and its salts (glutamates). These compounds provide an umami (savory) taste to food.. Glutamic acid and glutamates are natural constituents of many fermented or aged foods, including: soy sauce, fermented bean paste, and cheese.They can also be found in hydrolyzed proteins such as yeast extract.
