I think Chris is spot on that people are increasingly “creeped out” by tranquility; everywhere you look, people are glued to their cell phones, and it has become harder and harder to just sit in silence for a few minutes without feeling the urge to check your phone, send a quick message, or search through your phone mindlessly until the period of waiting is over.

THE TECHNOLOGICAL CITIZEN » Our Cell Phone Culture

Information is the resolution of uncertainty; it is that which answers the question of "what an entity is" and thus defines both its essence and nature of its characteristics. Information relates to both data and knowledge, as data is meaningful information representing values attributed to parameters, and knowledge signifies understanding of a concept.
