Investigate how calorimetry can be used to find relative specific heat values when different substances are mixed with water. Modify initial mass and temperature values to see effects on the system. One or any combination of the substances can be mixed with water. A dynamic graph (temperature vs. time) shows temperatures of the individual substances after mixing.

Lab 4 - Calorimetry Purpose To determine if a Styrofoam cup calorimeter provides adequate insulation for heat transfer measurements, to identify an unknown metal by means of its heat capacity and to determine a heat of neutralization and a heat of solution.

**Lab 4 - Calorimetry - WebAssign**

The following is a list of specific heat capacities for a few metals. We need to find the specific heat of the unknown sample of metal in order to locate it on the list. We can do this by using the equation that allows us to determine the specific heat capacity of an element. Since we know the ...

Soda Can Calorimeter Energy Content of Food ... by dividing the answer above by 1000.  $265 \text{ cal.} \div 1000 = 0.265 \text{ Cal.}$  4. Determine how much of the food burned by subtracting the final mass of the cork/pin/food assembly from the initial mass. ... try the Flinn Scientific "Calorimetry Basics—Specific Heat Laboratory Kit" (Catalog ...

**Soda Can Calorimeter - Flinn Scientific**

The first virtual lab that students do in this lesson can be found on Glencoe's website. This screencast movie shows how students perform the virtual lab by clicking through the procedures, recording, and analyzing their data. Students perform the lab on the computer and record data and answer questions on their calorimetry virtual lab paper.

Lab Answers: Energy from Burning... Hypothesis If the change in temperature is greater when the water is heated with the use of the fire caught by the food substance, then the energy content in the food substance is higher because the heat energy is greater, since the heat energy is absorbed by the water when the fire is kept under the test ...
