This is the home page of David Friedman. Not the Hawaiian artist David Friedman, or the composer David Friedman, or the fix-what's-wrong-with- government David Friedman (050) or the fifteen year old David Friedman or the eighteen year old David Friedman or the legendary film pornographer David Friedman or even the economic journalist David Friedman but the anarchist-anachronist-economist David ...

David D. Friedman's Home Page

Capitalism is an economic system where private entities own the factors of production. The four factors are entrepreneurship, capital goods, natural resources, and labor. The owners of capital goods, natural resources, and entrepreneurship exercise control through companies.

Capitalism: Definition, Characteristics, Pros, Cons

Capitalism and socialism are somewhat opposing schools of thought in economics. The central arguments in the socialism vs. capitalism debate are about economic equality and the role of government. Socialists believe economic inequality is bad for society, and the government is responsible for reducing it via programs that benefit the poor (e.g., free public education, free or subsidized ...

Capitalism vs Socialism - Difference and Comparison | Diffen

"It's radical, it's market-oriented, and it's going to drive conversation and policy for decades to come. Glen and Eric do a deep dive into the art and science of mechanism design, a field at the intersection of economics and engineering. They explore how quadratic voting can optimize electoral outcomes, dig into the implications of a futuristic tax system that would make Henry George swoon ...
