Sensor fusion is combining of sensory data or data derived from disparate sources such that the resulting information has less uncertainty than would be possible when these sources were used individually. The term uncertainty reduction in this case can mean more accurate, more complete, or more dependable, or refer to the result of an emerging view, such as stereoscopic vision (calculation of ...

As the rest of you know, I upload a new video on YouTube every Thursday, but you may not yet know my theme this month? It's a word most of us hate: Loneliness. But if you've been following me for a while then you know that it is a word I talk about a lot as it's my life calling to help end loneliness and create more meaningful connections. And we don't want to just jump to the "meaningful ...

Answers in Genesis (AiG) is a fundamentalist Christian apologetics parachurch organization. It advocates Young Earth creationism on the basis of its literal, historical-grammatical interpretation of the Book of Genesis. Out of belief in biblical inerrancy, it rejects the results of those scientific investigations that contradict their view of the Genesis creation narrative and instead supports ...
