The consensus was clear: Your face has different needs than the rest of your body. Jeffrey Lewis, a formulations chemist who develops personal care products, explained that "the skin around the face is much more thin than the body," and that the best facial cleanser won't be as harsh as body wash or hand soap.

The Best Face Wash of 2019 | Reviews.com

Provides detailed reference material for using SAS/STAT software to perform statistical analyses, including analysis of variance, regression, categorical data analysis, multivariate analysis, survival analysis, psychometric analysis, cluster analysis, nonparametric analysis, mixed-models analysis,

and survey data analysis, with numerous examples in addition to syntax and usage information.

SAS/STAT(R) 9.2 User's Guide, Second Edition

Chemical nomenclature is the term given to the naming of compounds. Chemists use specific rules and "conventions" to name different compounds.

Chemical Nomenclature - Shodor

Ester names are derived from the parent alcohol and the parent acid, where the latter may be organic or inorganic. Esters derived from the simplest carboxylic acids are commonly named according to the more traditional, so-called "trivial names" e.g. as formate, acetate, propionate, and butyrate, as opposed to the IUPAC nomenclature methanoate, ethanoate, propanoate and butanoate.

Ester - Wikipedia

A balanced chemical equation tells you the amounts of reactants and products needed to satisfy the Law of Conservation of Mass. Basically, this means there are the same numbers of each type of atoms on the left side of the equation as there are on the right side of the equation. It sounds like it should be simple to balance equations, but it's a skill that takes practice.

How to Balance Chemical Equations - ThoughtCo

One of my goals is to create a website that gives starting formulas to anyone who is looking for one. I'm modelling it after the Open Source Software movement and dubbing it Open Source Formulating (or something like that). Essentially it will be a place where people can find and exchange formulas ...
