Press the Windows key, type Change advanced startup options, and then press Enter.; Under the Recovery tab, select the Restart now option under Advanced startup.; After a moment, you'll see a menu with three options.

Getting into Windows Safe Mode - Computer Hope
640x480 "VGA" resolution is the lowest-common-denominator - by definition all PC's, graphics adapters and monitors must support at least VGA. Because it's the one thing that can be counted on to work, and always work regardless of your hardware selection, it's often used as the fallback when troubleshooting, or the default if your computer doesn't know it can do any better.

Why is 640x480 my only resolution option? - Ask Leo
Windows XP Display Settings. Windows 7 Display Settings. For screen resolution, move the slide bar over to the LEFT. This will lower the resolution and allow your monitor to display Windows correctly.

Fix Blank Screen After Changing Computer Display Settings
